Re: Kearsarge Telephone Company - Notice of Network Change

Dear Ms. Dortch:

Pursuant to Section 51.332 of the Commission's rules, Kearsarge Telephone Company ("Kearsarge") hereby submits the attached Notice of Network Change. Specifically, Kearsarge provides notification to the Commission of the replacement of copper distribution and loop facilities with fiber-to-the-home facilities at a certain digital service area (DSA) located in Andover, New Hampshire. Upon completion, Kearsarge will provide services through its fiber optic network.

This project impacts only local exchange customer lines; Kearsarge does not have any carrier customers. The majority of customers served by copper at these locations purchase "plain old telephone service" (POTS). Following transition to fiber, Kearsarge will continue to offer these customers the same POTS service over fiber at the same or better price as they received on copper facilities. There will be no change in the underlying features and functionalities in their service: this is not a transition to IP-based service, and Kearsarge will offer these customers the same regulated service they have today.

Concurrent with this filing, and in accordance with Section 51.332(b)(4) of the Commission's rules, a copy of this Notice of Network Change is being submitted to the Secretary of Defense, the Governor of the State of New Hampshire, and the New Hampshire Public Utility Commission.

Please contact me should you need any further information.

Sincerely,

A handwritten signature in black ink that reads "Jennifer R. Heise".
